NUTRICIA

Fortini

INFANT

3. Shake well before use.
4. The formula should be decanted into a sterilized* formula bottle. If the infant is being tube fed, the formula can be decanted into a sterilized feeding bag.
5. Cap bottle. Feed immediately. Discard unfinished feeds after use.

*Ask your baby's healthcare team if you need to boil (sterilize) bottles and nipples before use.

Do not boil formula or use a microwave to prepare or warm formula; serious burns may result. Formula must not be re-warmed during feeding.

STORAGE BEFORE OPENING:
Store in a cool, dry place. Do not freeze. Avoid excessive heat and prolonged exposure to light.

STORAGE AFTER OPENING:
Opened individual cartons can be kept in the fridge for maximum 24 hours.

TUBE FEEDING:
4-hour hang time based on using a single-use sterile bag every feeding and not warming formula for tube feeding.

For use by date: See top of container
