Helping kids bounce back

* FOR INTERNAL USE ONLY

Fortini

As pioneers in developing the most complete, highly-tailored range of products and services, we ensure parents can see measurable results, wherever they are in their unique journey.

Our tailored solutions are carefully designed by scientists, recognized by experts and most importantly – approved by kids.

OUR PORTFOLIO DEVELOPMENT OVER YEARS: PIONEERING INNOVATIONS, WITH HIGHLY TAILORED SOLUTIONS APPROACH

Fortini

1990

1994 — *First* to develop paediatric range

1999 — Infatrini high energy infant feed launched

2002 — First homecare package for children

2003 — Fortini: 1st high energy sip feed range for children

2003 — Tentrini: 1st age-adapted paediatric tube feed

2005 — Nutrini Low Energy Multi Fibre: 1st low energy feed for children

2008 — Nutrini Peptisorb: 1st hydrolysed liquid feed for children

2009 — Fortini Multi Fibre

2009 — Nutrini Tentrini formulation upgrade

2010 — Fortini Smoothie Multi-Fibre launched

UNIQUE PRODUCT

2012 — Infatrini Peptisorb

2014 — Fortini Creamy Fruit launched

UNIQUE PRODUCT

2016 — Nutrini Peptisorb Energy launched

2017 — Fortini Compact Multi Fibre: 1st paediatric compact product was launched

2017 — Infatrini launched in China

2020 — Aptagrowth launched in ANZ and in 2021 in CN

2020 — Fortini launched in China

2021 — Fortini Compact Multi-Fibre: new flavor (choco) launched

2021 — Fortini Infant launched in US

Milnutri migrate to Fortini Complete

2021 — Nutrinidrink +mix launched on the market

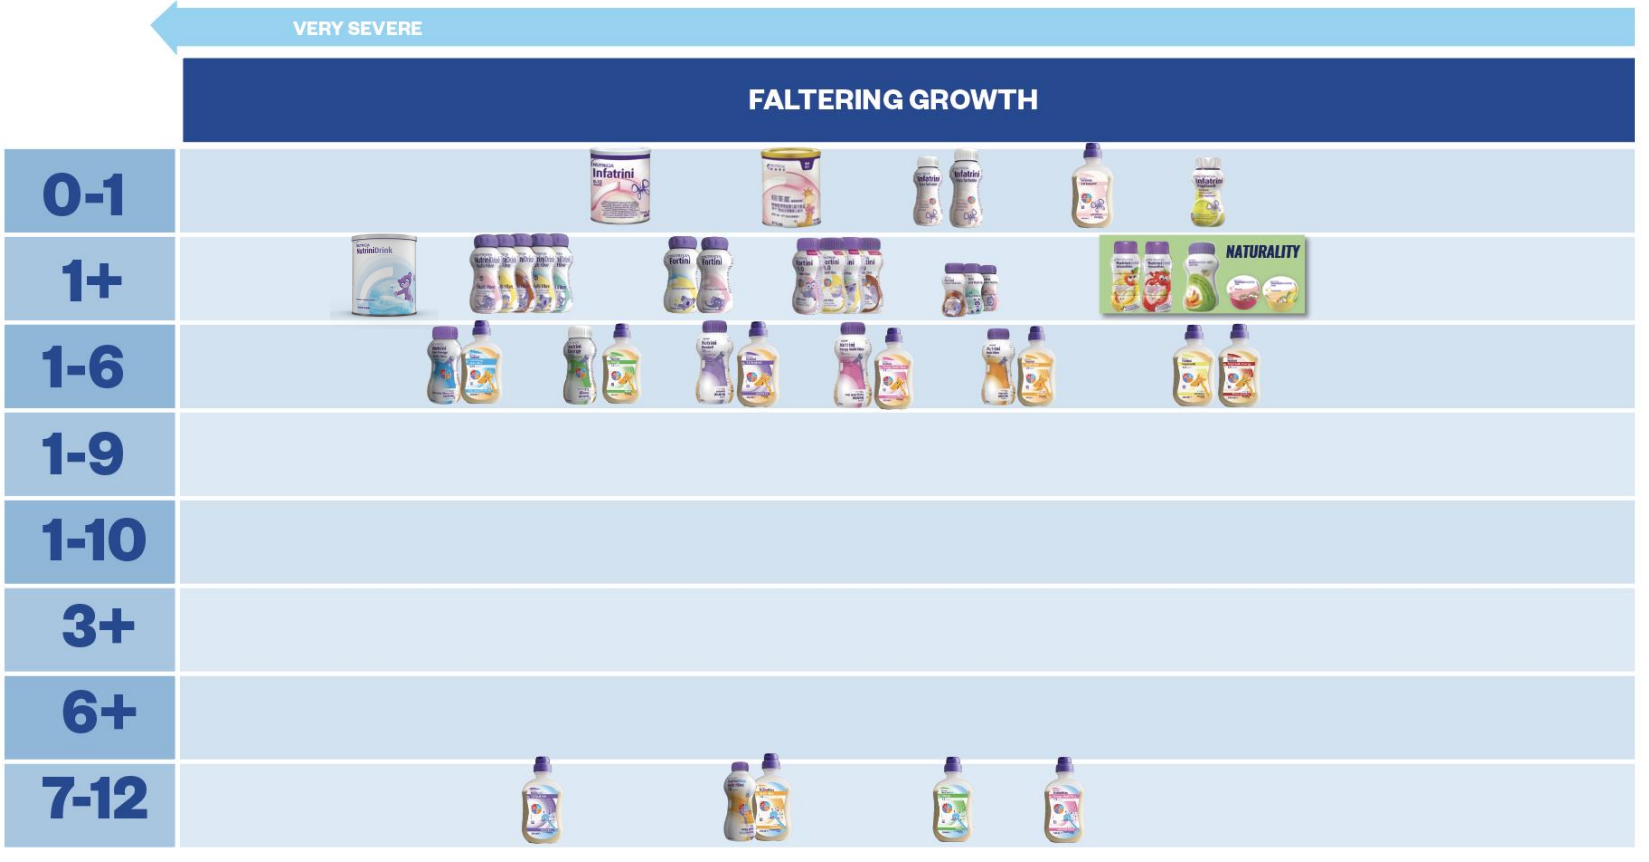

2023 — SGM Eks Gain and Dugro launched on the market

PRODUCT NAME

CALORIC DENSITY

PRODUCT DESCRIPTION

Infatrini Tube (500 ml)

1.0 KCAL / ML

For the dietary management of disease related malnutrition and faltering growth.

Energy and nutrient dense feed for infants from birth and young children (0-18 months or <9kg).

- Nutritionally complete
- Optimal energy from protein (10.2%), with 2.6g protein /100kcal
- Intact protein (casein/whey:40/60)
- Contains scGOS:lcFOS (9:1)
- Contains 2'-FL HMO*
- Contains nucleotides
- Contains fish oils, LCPs
- Gluten free
- Contains lactose
- Osmolality (360 mOsmol/kg H2O)

MEDICAL DEVICES

Flocare® Infinity™ III pump

The Flocare Infinity III pump is a Class IIa medical device and as such must conform to stringent CE marking requirements before it is commercially available.

- **Ease of Interaction**: Simple, clear & convenient programming & operating of the pump. Easy to understand, to solve errors & adjust programs
- **Enhanced Monitoring**: Be ready for the future of access to data, improved performance and access to relevant patient history
- **Ease of Low-level Local Service**: Facilitate more service options at local level
- **Cost Reduction**: Make the total cost of ownership of Infinity III more price competitive

INFO

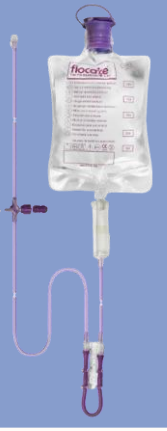

- Continuous and interval feeding programs from 1 mL to 4000 mL, with or without dose limit
- Flow rates 1mL/h to 600 mL/h
- Rate and delivery always visible in run mode
- 24 hour battery life @125 mL/h
- +/- 5% accuracy
- 30 day volume history

The Flocare® brand represents a strategically important product family for Nutricia. With our market leading enteral pump brand, we can position ourselves as an innovative company, built from a solid research and development foundation, pioneering both technology and tube feed advancements to meet diverse patient needs across a range of different healthcare setting. Flocare® Infinity™ II pump is also available.
