

*[Music]*

**VO: Feeding intolerance is a significant concern and a leading cause of insufficient enteral nutrition[7] in pediatric patients**

**VO:**

**VO: Symptoms such as vomiting, diarrhoea,**

**VO: … abdominal distention and constipation can disrupt nutritional intake, growth and family life.**

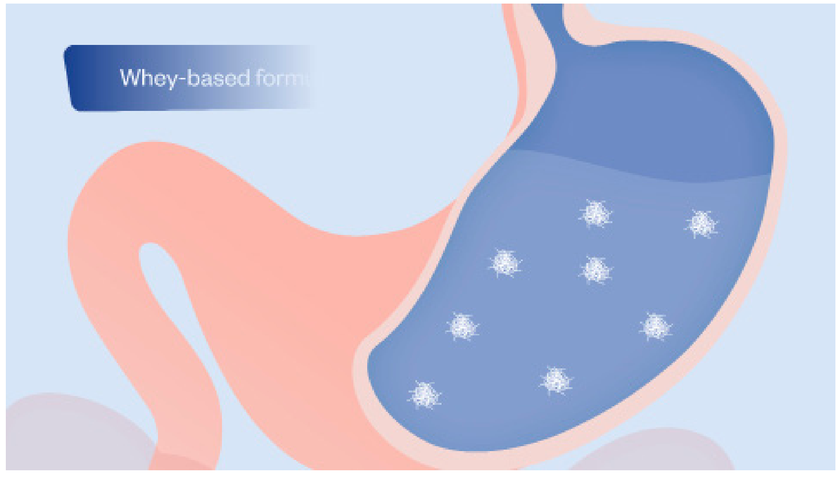

**VO: That's why at Nutricia…**

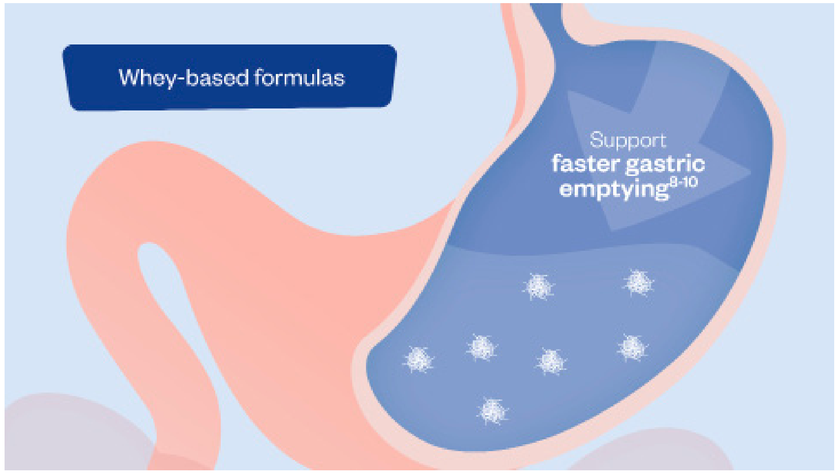

**VO: ... we have designed our products for optimal tolerance while supporting growth.**

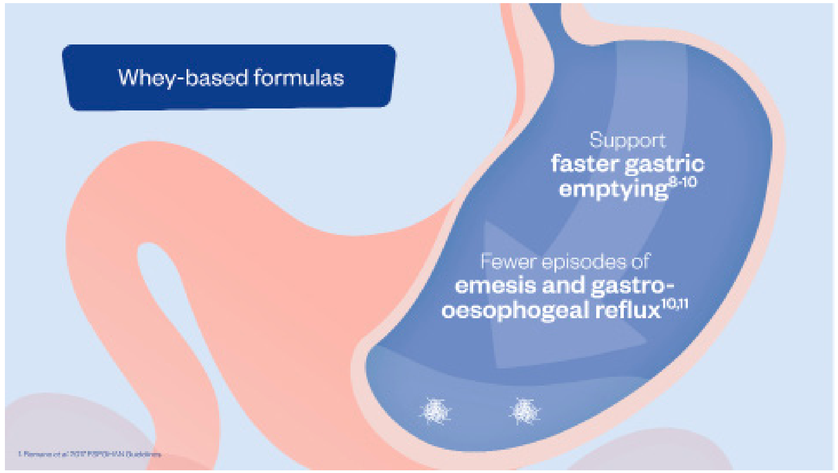

**VO: Only Nutrini formulas* combine a whey-based protein blend with our unique MF6 fibre mix.**

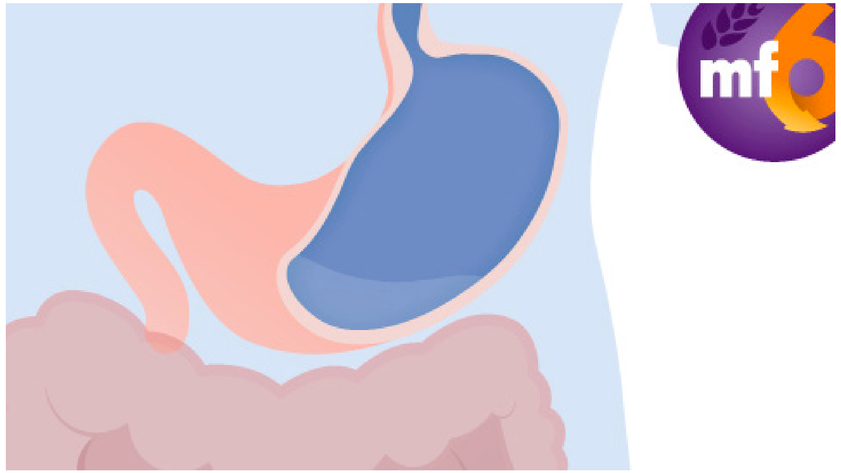

*[Action: the camera zooms in and past the bottle and text, and a stomach fades in]*
**VO: Whey-based formulas have been shown...**

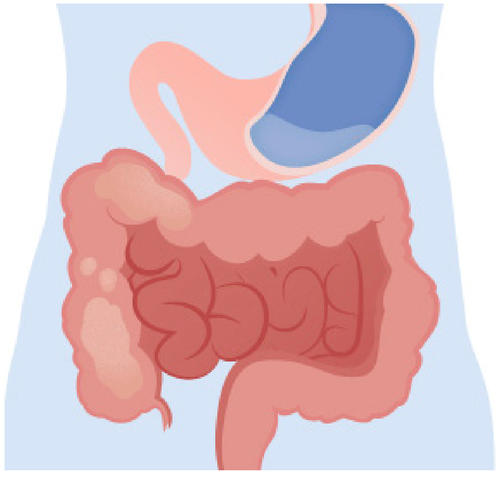

*[Action: the contents of the stomach begins to empty, revealing the text, arrow pulses in sync with emptying]*
**VO: ...to support faster gastric emptying,**

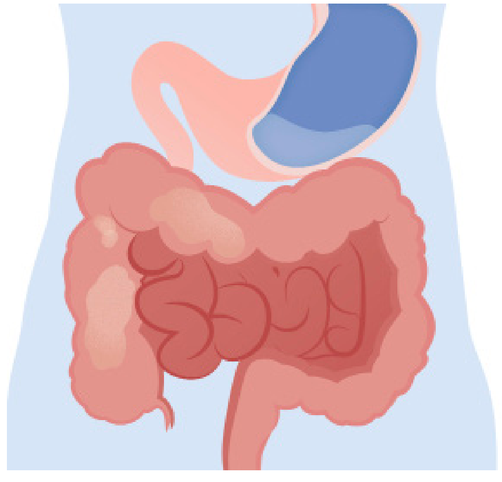

**VO: ... and are associated with fewer episodes of emesis and gastro-oesophogeal reflux.**

*[Action: The stomach zooms out to show the rest of the gut, and moves to the side as the MF6 logo drops in]*
**VO: Our exclusive MF6,...**

**VO: ...a scientifically balanced mix of...**

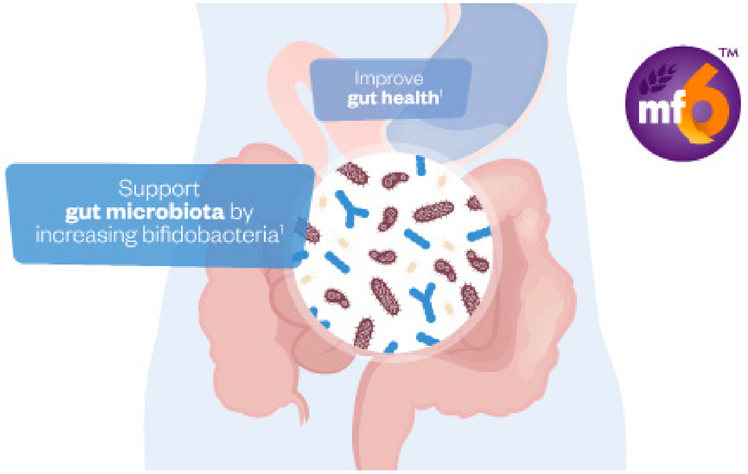

*[Action: the waves of peristalsis are shown, moving a bolus through the colon over the next few sentences]*
**VO: 3 soluble and 3 insoluble fibres.**

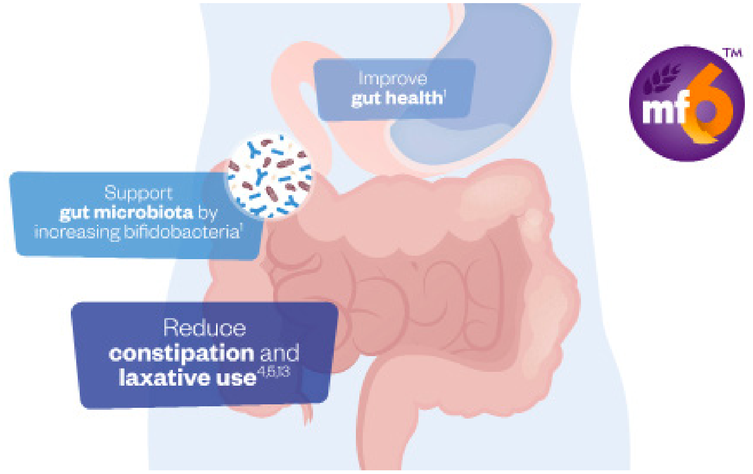

*[Action: the body and gut move to centre, shifting the logo and wiping the text]*
**VO: These all play a different role in the upper and lower gut. This closely resembles fibres found in a healthy diet,**

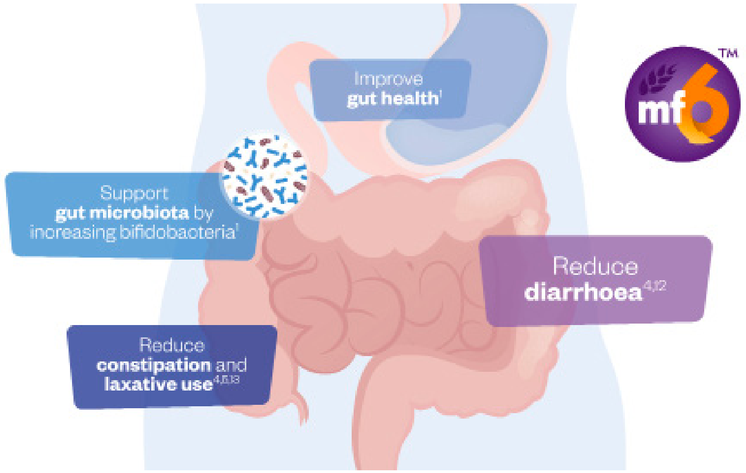

**VO: ...helping to improve gut health,**

*[Action: 'Improve gut health' label shrinks and moves up. The microbiota roundel zooms in from the centre of the gut.]*
**VO: ...support gut microbiota by increasing bifidobacteria,**

*[Action: The roundel shrinks down to sit alongside the microbiota text box.]*
**VO: ...reduce constipation and laxative use,**

**VO: … and reduce diarrhoea.**

*[Action: the product range appears from the bottom of the screen as the gut fades out]*

**VO: Nutricia's tailored age- and energy-adapted[14] tube-feeding range has been**

**VO: …designed with tolerance in mind.**

**VO: With over 30 years of expertise in paediatric nutrition, Nutrini tube feeds deliver clinically precise, tailored solutions, supported by medical devices and services that go beyond nutrition for the children who need it most.**

**VO: For more good days.**

**VO: Nutrini, tailored for unique needs, trusted for proven tolerance[1–6]**
